

Dynamic
Protection
For Your
Network!

Hosted SecurityNET™

Tech Assist's **SecurityNET™ Hosted Office** includes all **SecurityNET™** services, **E-mail, Web & IM Filters** along with **Archive & Hosted E-mail**.

No hardware or software to install or maintain, **SecurityNET™ Hosted Office** sets up in five minutes - you simply "set-and-forget."

E-mail SecurityNET™

Tech Assist's **E-mail SecurityNET™** service protects you from spam, viruses and all other malware before it gets anywhere near your network.

Web SecurityNET™

Tech Assist's **Web SecurityNET™** service lets you monitor, filter, and document 100% of the web sessions on your network.

IM SecurityNET™

Tech Assist's **IM SecurityNET™** service lets you monitor, document and filter 100% of the IM conversations on your network.

Archive SecurityNET™

Tech Assist's **SecurityNET™ Archive** service provides centrally managed and administered control of digital archives (e-mail & chat transcripts).

Secure And Affordable Online Collaboration

Administrative Benefits

- ▶ All mail is backed up via our archive solution so you have a complete disaster recovery application in place
- ▶ Integrated email (Spam & Virus) web and IM filter as well as searchable archive
- ▶ Lower-Overhead Management
 - ▶ Native Hierarchical Storage Management or Information Lifecycle Management (HSM / ILP)
 - ▶ Online single mailbox restore by using archive to re-send archived inbox/sent items)
 - ▶ Rich, zero footprint, AJAX-based administrator interface (cross browser/OS)
- ▶ Storage Consolidation
 - ▶ Substantial reduction in managed storage - One copy of email & attachments (rather than one per user or one per storage group)
- ▶ Compatibility with Existing Infrastructure
 - ▶ Client - Outlook, Mobile, IMAP, POP, iCalendar, RSS, etc.
 - ▶ Messaging Server - Co-existence and migration tools (including Microsoft Exchange)
- ▶ Security
 - ▶ Web security model - Single sign-on, TLS/SSL, no VPN required
 - ▶ Secured attachment opening and HTML rendering
 - ▶ Total security as our state of the art email, web and IM filters are included using multiple virus engines

End-User Benefits

- ▶ 1 Gigabyte per mailbox included, mailbox storage space can be combined
- ▶ Enables secure remote access to end user interface from any SSL-enabled browser
- ▶ Browser based client with search, shared calendar and mail that is integrated with contacts and calendar
- ▶ Support for Microsoft Outlook 2003: calendar, mail, contacts and offline mode
- ▶ Support for mobile devices: Blackberry (via partner solutions), Treo and etc
- ▶ Support of Windows, Apple and Linux computers
- ▶ Freedom of Client Choice
- ▶ Self-Organizing Mailboxes
- ▶ Comprehensive Calendaring
- ▶ Efficient context switching
- ▶ Any Place, Any Machine
- ▶ Modern collaboration styles/formats

End-User File Storage

SecurityNET™ Hosted Office allows your company not to worry about your entire Corporate Information Store with our file storage service which is included at no extra charge with this offering. It truly is the best solution for storing and sharing online.
